"Buyer"	Means the bidder whose bid was the last bid when the auctioneer concludes the bidding;

Whilst every endeavour has been made to describe the items adequately and properly, the buyer shall deem to have inspected the lot at time of purchase. All catalogues and Buyer's guides are for information only and do not form part of the contract.

**3. VARIATION OF LOTS** The auctioneers reserve the right to withdraw, consolidate or divide any lot or lots or submit them in any order that they deem desirable. The auctioneers will use every endeavour to ensure that all lots listed in the catalogue are presented for sale, but cannot accept any responsibility for the lots not being presented. Nor can they entertain any claim for expenses incurred in abortive attendance at the sale.

**4. THE AUCTION** All auctions are conducted at the absolute discretion of the auctioneer. The auctioneer shall conduct the auction with reasonable skill and care. The vendor reserves the right to sell subject to reserve price in respect of all lots. What constitutes a bid shall be at the absolute discretion of the auctioneer, acting with appropriate skill and care. The auctioneer shall have the right to refuse any bid in all cases but most notably when such a bid does not exceed the previous bid by at least 10% or such a proportion as the auctioneer shall in his absolute discretion direct. Where two or more bids at the same level are simultaneously received by the auctioneer, the auctioneer at his absolute discretion shall determine which bid to prefer. Subject to the foregoing where two or more bids are at the same level are simultaneously received by the auctioneer, any bid submitted in the room shall take preference over a bid submitted by telephone or internet at the same level. Any bid made or attempted by telephone or over the internet will only be deemed to have been made if received by the auctioneer. The auctioneer has the right at his absolute discretion to refuse admission to his premises or attendance at (or participation in) any auction by any person. In the case of any dispute, the auctioneer shall be sole arbitrator in any matters arising during or out of the sale.

**5. Any dispute about a bid shall be settled at the auctioneer's absolute discretion. Bidders are all deemed to act as principals unless there is prior written acknowledgement by the auctioneers that a bidder is acting as an agent for a named principle. Bidders are strongly encouraged to attend the auction in person. Bidders shall be responsible for any decision to bid for a particular lot and shall be deemed to have carefully inspected and satisfied themselves as to condition. The auctioneers or their employees or agents shall not be responsible for any neglect or default in doing or failing to do so. Bidders will be given ample opportunity to view and inspect before the sale and prospective buyers must satisfy themselves as to all matters. The auctioneers, their employees or their agents or the vendor accept no liability for the correctness of specific opinions and all conditions and warranties, expressly, implied or statutory are hereby excluded.

Number bidding will be used for speed and efficiency as in all our sales. All prospective buyers must complete the form supplied and register in the office prior to bidding at the sale to receive a number for bidding.

**6. PAYMENT** All lots shall be paid for upon the day of the sale and the auctioneers reserve the right to refuse removal of lots when payment is proposed by cheque and the buyer is unknown to them. Credit and debit card payments will only be accepted on a chip and pin basis with the cardholder present. After the fall of the hammer, the lot shall be at the **buyer's risk**. It is expressly stated that the auctioneers will not be responsible for its safe custody. Due to Money Laundering Regulations 2007, the auctioneers cannot accept cash payments in excess of £10,500 (inc. VAT) from any one person. - to resell the lot (by auction or private treaty) in which case the defaulting buyer shall be responsible for any resulting deficiency in the total amount due (after crediting any part payment and adding any resale costs), any possible surplus so arising shall belong to the vendor;
- to remove, store and insure the lot at the expense of the defaulting buyer and, in the case of storage, the location of such storage shall be at Clarke and Simpson Auctions Ltd discretion;
- to charge interest at a rate of 2% per month of the total amount due to the extent that it remains unpaid for more than two working days after the sale;
- to retain that or any lot sold to the defaulting buyer until the buyer pays the total amount due;
- to reject or ignore bids from the defaulting buyer at future auctions or to impose conditions before any such bids are accepted;
- to apply any proceeds of sale for any other lots due or in the future becoming due to the defaulting buyer towards the settlement of the total remaining due.

**10. INDEMNITIES, PENALTIES AND LIMITATIONS OF LIABILITY** Buyers shall pay for any damage done by themselves or their agents during the removal of their lots. Attendance at the sale shall be at the risk of those attending in respect of both themselves and to their goods and vehicles. Any indemnity under these conditions will extend to all actions, costs, expenses, claims and demand whatsoever suffered or incurred by the person entitled to the benefit of it and the auctioneers declare themselves to be a trustee of the benefit of such indemnity so far as it is expressed to be the benefit of its employees and agents. Whilst the auctioneers endeavour to ensure that the information on their websites is correct, neither party warrants the accuracy and completeness of the material on their website. Also the auctioneers can make changes to the material on their website, or alter the products and prices described on it, at any time without notice. The material on the website may be out of date, the auctioneers make no commitment to update such material. All material on the websites is provided "as is" without any conditions, warranties or other terms at any time. Accordingly to the maximum extent permitted by law, the website is provided to all parties on the basis that the auctioneers exclude all representations, warranties, conditions and other terms which, but for this legal notice, might have effect in relation to the website.

**11. ELECTRICAL SAFETY REGULATIONS** All electrical lots are subject to electrical safety regulations and fall within "the low voltage electrical equipment (safety) regulations 1989" and therefore any non-compliant items may only be purchased by a trader who is in the business of repairing or reconditioning such items to comply with these regulations.

**12. GENERAL MATTERS** Any notice to any buyer, vendor, bidder or viewer may be given by first class mail or email in which case it shall be deemed to have been received by the addressee forty eight hours after posting or sending. All notices to the auctioneers must be sent in writing and email is not acceptable. Any indulgence extended to any person by the auctioneers notwithstanding the strict terms of these conditions or the terms of consignment shall affect the position at the relevant time only and the respect of that particular concession only; in all other respects these conditions shall be construed as having full force and effect. Their conditions and any disputes or claims arising out or in connection with them or their subject matter or formation (including non-contractual disputes or claims) are governed by and construed in accordance with the law of England. The parties irrevocably agree that the courts of England have exclusive jurisdiction to settle any dispute or claim that arises out of or in connection with the agreement or its subject matter or formation (including non-contractual disputes or claims).

**13. PUBLICITY** Any catalogue and buyer guide are provided for information only and do not form part of these conditions. The catalogue and the buyer guide may contain additional terms and conditions. The auctioneers reserve the right to use any photographs, back ground information and research for publicity purposes both before and after the sale. This includes publication on their website.

**14. BUYERS FROM E.C. COUNTRIES** Under E.C. regulations, goods purchased at our sale will be zero rated for VAT purposes, subject to all of the following conditions being met:

- The goods are sent or transported out of the UK to a destination in another EC Member State.
- The Auctioneers receive valid commercial documentary evidence that the goods have been removed from the UK within three months of the date of the sale.

If you are not registered for VAT in your member state or are unable to provide us with any of the above information, VAT at the standard UK rate will be payable and will not be reclaimable.

**15. BUYERS FROM OUTSIDE THE EC** A VAT Deposit equivalent to the standard rate of UK VAT (currently 20%) will be charged on all lots which are being exported outside the E.C. The vendor also undertakes to provide the buyer all operators' handbooks and instruction manuals. If required to do so and if possible, the vendor further undertakes to provide the buyer with an explanation about the use for which the lot is designed and about any issues necessary to ensure it will be safe and without risk to health at all times.

**19. HEALTH AND SAFETY PRECAUTIONS** The Auction Centre site includes items of working machinery and those persons attending are advised to take all reasonable precautions to avoid accidents. Where the vendor does not show the V5 registration document as being supplied these charges will not apply.
