16. AT FAULT (A.F.) LOTS

Certain lots are catalogued at (A.F.), damaged, restored etc., however the absence of any such notice does not imply that the piece is free from defects, nor does it indicate that other defects are not also present. Mention is not made of breakage, cracks, chips or any damage which can be noted by careful inspection, therefore, intending purchasers MUST, in all cases, be responsible for determining the condition of the lots themselves.

17. ESTIMATES

Presale estimates are intended only as a guide for intending purchasers, are given in good faith and subject to revision.

18. CONDITION REPORTS

Clarke and Simpson are unable to guarantee that requests for condition reports/images received will be responded to. Clarke and Simpson are happy to give a Condition Report where possible on the physical condition of goods, this will be provided on behalf of the seller on the understanding that Clarke and Simpson are not entering into a contract with you in respect of the Condition Report and accordingly does not assume responsibility to you in respect of it. All lots are available for your own inspection or for inspection by an expert instructed by you, therefore these Condition Reports are for guidance only and all lots are sold "as found". Condition reports do not form part of a contract.

19. COMMISSION BIDS

The auctioneers will be pleased to execute bids for those unable to attend the sale. Lots will be purchased at the lowest bid the room bidding or any reserves will allow. In the event of identical bids, the earliest bid received will take precedence. There must always be a maximum limit indicated. Buy or unlimited bids will not be accepted. Commission bids placed by telephone are accepted at the client's risk. We urge our clients to place such bids before the start of the sale. All such commissions are left entirely at the buyer's risk.

20. VALUE ADDED TAX

The symbol * after any lot number indicates that Value Added Tax is payable by the buyer on the hammer price.

21. AUCTIONEERS MARGIN SCHEME

The Auctioneers Margin Scheme allows auctioneers to sell items without VAT on the hammer price. Under the margin scheme an amount equivalent to VAT at the current rate is added to the buyer's premium. This amount cannot be refunded. The VAT element will not be shown separately on the buyer's invoice. This VAT is not recoverable as Import Tax.

22. ATTRIBUTION OF PICTURES AND DRAWINGS

Every effort is made to ensure the accuracy of any statements as to authorship, attribution, origin, date, age, provenance and condition of any lot whether or not such statement forms part of the description of any such lot. Whether any such statement is made orally or in the catalogue it is an expression of opinion and not to be taken as being or implying any warranties or representations of facts by the auctioneers. Each buyer by making a bid for a lot acknowledges that he has satisfied himself fully as to the attribution and condition of the lot. The following is for guidance only and does not form part of a contract.

- A. The forename (s) (or full stops where not known) and surname of an artist indicates in our opinion a work by the artist.
- B. The initials of the forename (s) and the surname of the artist indicates in our opinion a work of the period of the artist which may be wholly or in part his work.
- C. The surname of the artist indicates in our opinion a work of the school or by one of the followers of the artist or in his style and of uncertain date.
- D. *Signed, Dated, Inscribed* indicated in our opinion work signed/dated/inscribed by the artist.
- E. *Bears signature* indicates in our opinion that this is not the signature of the artist.
- F. *Attributed to* may be used to denote a traditional attribution based on style.
- G. *Manner of* indicates in our opinion a work executed in the artist/craftsman's style but of a later date.
- H. *After* indicates in our opinion a copy (of any date) of work of an artist or craftsman.

The addition of a question mark after any of the cataloguing terms above indicates an element of doubt.

23. DRIOTE DE SUITE ROYALTY CHARGES

All United Kingdom Art Market professionals (which includes auctioneers) are required to collect a royalty payment for all qualifying Works of Art. This applies to living artists and those who have died in the last 70 years. This payment is calculated on qualifying Works of Art which are sold for a hammer price more than the UK sterling equivalent of €1,000 (the UK sterling equivalent will fluctuate in line with prevailing interest rates calculated by the Artist's Resale Right Service Hub, based on the European Central Bank reference rate published at 2.15pm on the day of the sale, and can be found on www.dacs.org.uk). All items in this catalogue that are marked "ü" are potentially qualifying items, and the royalty charge will apply if the hammer price is more than UK sterling equivalent of €1,000. The royalty charge will be added to purchase invoices and must be paid before items can be cleared. All royalty charges are paid to the design and Artists Copyright Society (DACS) by the auctioneers and no handling costs or additional fees with respect to these charges will be retained by the auctioneer. This charge may also be applicable to lots not marked "ü" and buyers must satisfy themselves. The royalty charge for qualifying items which achieve a hammer price of more than the UK sterling equivalent of €1,000, but less than the UK sterling equivalent of €50,000 is 4%. For qualifying items that sell for more than the UK equivalent of €50,000 a sliding scale of royalty charges will apply. For a complete list of the royalty charges and threshold levels please refer to www.dacs.org.uk. There is no VAT payable on this royalty charge.

24. ENDANGERED SPECIES

Lots sold at auction may include endangered or other species of wildlife and plant life, for example ivory, tortoiseshell, crocodile skin, whale bone, ebony or rosewood. Some countries restrict or prohibit import or export of objects containing these materials or require a licence/permit for their movement (e.g. a CITES Licence). Prior to bidding on a lot which may include these or similar materials, buyers must familiarise themselves with the relevant laws and regulations regarding their movement.

25. JEWELLERY

Gemstones are often treated to enhance colour and improve appearance. They may be heated or treated by oil or resin to intensify the colour and transparency. Other techniques like dying, irradiation, coating and impregnation can also be used. Buyers must be aware that unless the catalogue specifically states otherwise then the stone is natural, buyers must assume that any treatment may not be permanent, and that special care may be needed in the future.

26. EXPORT

Any lot purchased at auction may be subject to export restrictions and may require a licence for export out of the United Kingdom. The buyer is responsible for obtaining any licences that may be required (including any licence that may be required for import into the destination country) – any denial of such a licence will not be grounds for the buyer to cancel the purchase.

Accordingly, neither the Auctioneer nor its employees or agents shall incur liability for death or personal injury (except as required by law) or similarly for the safety or persons visiting the premises.
